REPORTS.

Loss of the "Nankin,"

The British brigantine *Nankin* from Suel bound to Hongkong has been totally lost on some rocks, when leaving the former port.

The *Cecilia* from this bound to San Francisco arrived at the latter port on 9th November—the news has been received by the *Curlew* arrived at Manila.

The American ship *New Hampshire* may be expected here shortly from San Francisco with Chinese passengers only. The Chilenian brig *Emma* is also coming, in ballast, to load coolies for Peru.

The *Octavia* and *Louisa* are chartered to convey Chinese workmen from this to Bombay; a contract has been entered into by a firm here, to supply 2000 men.

On 12th Oct. in Lat. 2 N. Long. 28 W. at 8. A.M. the *Her Majesty* fell in with a barque, which by signal desired them to heave to or suffer firing into, at the same time firing three times across the bows of the ship—two blank charges, and one shotted which fell a few yards ahead of the vessel. The barque sent a boat on board, the officer in charge of which said that the barque was the *Relief* under the Federal flag, commander J. Smith from Mauritius bound to Boston and all she required was the "latest intelligence.

UNTIL further notice the steamer

will leave Canton for Hongkong, on *Mondays, Wednesdays, and Fridays*, at 9 o'clock A.M. and Hongkong for Canton on *Tuesdays, Thursdays, and Saturdays* at the same hour.

A CARD.

WITH reference to Miss AMELIA BAILEY's notice, appearing in the DAILY PRESS of this morning, I beg to say, in my own name, and in that of Singnor GROSST and Mr. RODOLFO SIPP, that the terms offered to us by Miss BAILEY, through her Secretary Mr. SMYTH, were quite the reverse of liberal. I may also mention that, though Mr. SIPP agreed to receive one-third of the net proceeds of Miss BAILEY's last concert, at which nearly three hundred ladies and gentlemen were present, the sum tendered to him by Mr. SMYTH the Secretary, was $33, which he means to hand over to some local charity. Dissatisfaction with Mr. SMYTH, and no unwillingness to assist Miss BAILEY, has been the cause of our united refusal to act in concerts with that lady.

HONGKONG, 15th January, 1864.

To the Representatives of the "*Canton Foreign Community*" *of* 1856.

GENTLEMEN,—The amount of Interest accruing upon the Indemnity paid by the Chinese Government for the destruction of the property belonging to the late "Canton Fire Brigade," is Nine Hundred and Ninety-five Dollars and ninety-eight Cents.

As those amongst your number, who continue to reside at Canton are known to feel much dissatisfaction that no portion of the principal sum was voted to the re-establishment of a "Fire Brigade," the portion of the Settlement at Chameen, I beg to propose that the amount above mentioned be left in the hands of H.M. Consul for that purpose, to which I believe it to be fully adequate. Should no objection to this course be intimated to me on, or before the 15th February next, I shall consider myself exonerated from responsibility in regard to the sum in question.—I am, Gentlemen, Your obdt. Servant,

C. W. MURRAY,
Treasurer to the late "Canton Fire Brigade."

To " the Keel 20 feet,	3,500
To filling up the space 205 by 90 feet,	10,800

FOR the late issue and not very creditable appearance of the *China Overland Trade Report* it is right we should apologise to our subscribers and afford them some explanation. The late arrival of the Shanghai Mail and the consequent delay in getting our market tables together, also the new form in which we for the first time produce the "Trade Report," all tended to make us late in going to press; but unfortunately at five o'clock this morning when ready, as we thought, to commence printing, we discovered that the whole of the paper had been cut too small. We were therefore compelled to re-arrange the type and cut other paper which had to be used dry, thereby accounting for the bad impression. Under all these unfavourable circumstances we were unable to commence striking off until eight o'clock this morning, but thanks to the rapidity with which Hoe's Machines work, we were enabled to issue in time for post.

LETTER TO THE EDITOR.

HONGKONG MINT.

To the Editor of the Hongkong Daily Press.

SIR,—I was much pleased to find that *one* Government official, as well as the non-official members of the Legislative Council, at the meeting on the 14th Instant, were disinclined to swallow (in globe) the Silver Pill then prescribed to be taken before bedtime, and trust, at their next meeting, that they will be prepared to keep the Mint question open until public opinion shall have been invited and expressed upon the subject—

I read with much curiosity the official correspondence upon the subject, which has lately *burst* upon us, although I had heard faint rumours, and the conclusions I came to were pretty nearly the same as expressed by you, in your leader of yesterday.

There are a few points, however, which you appear to have over looked, and which materially strengthen your views,—the first of these is the bait held out to the Imperial Government, in the fifth paragraph of Sir H. Robinson's letter to Sir F. Rogers (Colonial Office) dated 30th May 1863, which runs as follows—"I would advise also, in "view of the *heavy loss* which is at present falling "upon the Imperial Exchequer, *a loss which* "*I roughly estimate at the rate of between* £30,000 "*and* £40,000 *per annum*, that a Master be appointed at once &c. &c."

Again, in Sir F. Peel's letter (Treasury) to Sir F. Rogers (Colonial Office) dated 23rd June 1863, the closing paragraph runs as follows,

"I am further to suggest that in engaging the "services of the Master and other officers, some "understanding should be come to regarding *their* "*return to England, in the possible event of the* "*Mint being closed after a sufficient trial.*"

Thus it appears with a view to save the Imperial Exchequer, this colony is, in all cases, to bear the brunt; whether the Mint be a successful or an unsuccessful *experiment*, which, in England, is considered "an fait accompli," not not only by the pappointment of the Master, but by the preporation of the Plans, which, I believe, are fortnightly expected.

The Mint question is of so great an importance to this Colony, that the subject should be thoroughly ventilated, before any final decision, not only by the chamber of Commerce, but by the Public in general, and I do hope that meetings will be called for this purpose, which will be the means of strengthening the hands of the non-official members of the Legislative Council, at which the whole questions should be discussed on its merits as affecting this Colony, laying aside any private motive which might have originated it in Downing Street; should this meeting not be called, it will speak but little for the public spirit of the Colonists, now that their pockets are attacked, and will prove that a City Hall is not required for public meetings.

GENERAL POST-OFFICE,
LONDON, *19th March,* 1863.
SIR,—I beg to inform you that a letter has been received from the Post-master General of Hongkong, stating that it has come to his knowledge "that some of the large houses at Hongkong and "at Shanghai are in the habit of sending their "correspondence between those places" by the Packets of the Peninsular & Oriental Steam Navigation Company, otherwise than in the Mail; "which gives such firms an advantage over that "portion of the community who adopt the legitimate means of transmitting their correspondence." I have to request that the Directors of the Peninsular & Oriental Steam Navigation Company will have the goodness to cause enquiry to be made into the alleged illegal conveyance of letters by their Packets between Shanghai and Hongkong, and acquaint me with the result.

CIRCULAR.

THE Provisional Committee for promotting the erection of a City Hall in Hongkong, desire to report the progress that has been made, up to the close of the present year, in furthering the object for which they are associated.

The principal difficulty connected with this undertaking has been to procure a site that should be at once suitable for the purpose, and in the gift of Government; it being obvious that the present high value of Land within the limits of the City made it impossible that any sum of money, which the Committee could expect to command, would prove adequate if ground had to be purchased.

An application for a site at the Western Corner of the Parade Ground, immediately under Messrs. A. Heard & Co.'s Office, was promptly and liberally conceded, but, before any formal grant of the Land had been made, it was fortunately discovered that difficulties, previously thought insuperable, to the occupation of the piece of ground now partially occupied by the Harbour Master's Office, were susceptible of removal; and the Committee have the satisfaction of stating that a recommendation for a grant of that site (undoubtedly the most eligible for the purposes of a City Hall in the whole Colony) has, with the approval of the Military Authorities, been forwarded by the local Government to the Secretary of State for the Colonies, and that the position of the Drinking Fountain (presented to the City by Mr. John Dent, and now in course of erection) has been determined with special reference to the dimensions and situation of the proposed Building.

The space which, is it confidently hoped, will be thus placed at the disposal of the Committee will enable them to embrace in their scheme the following accomodation:—

I. A Public Hall, to be called the St. Andrew's Hall, in acknowledgment of a sum of Five Thousand Dollars, which has been voted to the undertaking from the surplus Funds of the late St. Andrew's School. This room will be available for Public Meetings, Public Dinners, Balls, Concerts, and other public purposes.

II. A Supper Room adjoining the Hall, and which, together with the Hall, can be used, when not specially required for other purposes, as an Exchange.

III. A Room for the Chamber of Commerce, where files of Newspapers, Prices Current, Books of Commercial reference and Telegrams will be opened to the use of Subscribers to that Institution.

IV. A Public Library for the objects stated by the Trustees of the Morrison Education Society in their printed Circular of the 1st May last.

V. A permanent Theatre, which will encourage visits to Hongkong by musical and histrionic artists from other parts of the East, and will obviate the necessary heavy and unsatisfactory outlay which the frequent erection of temporary Theatre has hitherto entailed.

The remainder of the space will be absorbed by the Harbour Master's Office, which will be removed from its present position to one appropriated for it in the North Eastern angle of the intended building, in accordance with the proposal submitted by the Committee to Government for permission to use the site which that office at present partially occupies.

Finished plans have not yet been prepared, and it is proposed that, at the proper time, they should be thrown open to competition, but the Committee have satisfied themselves that the space they have applied for will be ample for carrying out the various objects enumerated above on a scale which will render the intended edifice an ornament to the City, a convenience to the public, and in every way worthy of a Colony whose rapid growth and progress are the surest proofs of its wealth, enterprise and prosperity.

The urgency of the want that exists for a Public Building of this nature need scarcely be dilated on. Without diverting the Club House from its legitimate uses, at a great sacrifice of the convenience of its members, there is not in the length and breadth of the City a suitable room which can be commanded for any object of general or social interest. The difficulties that attended the Inauguration Dinner of the Volunteers, the abandonment last winter of a Masonic Ball for want of a room to hold it in, and the disadvantages to which the professional Artists at present here are exposed, are a few instances amongst very many of the inconveniences occasioned by the the want of a City Hall, a want, the Committee believe, which is not shared by any other foreign Community of equal importance East of the Cape, a want which has been recently supplied at Singapore and which they trust will not be allowed much longer to serve as an indication of an absence of public spirit in Hongkong.

The preservation of the valuable collections of Books in the care of the Trustees of the Morrison Education Society, and which are threatened with decay for want of a proper place of deposit, is an object which especially commends itself as a matter of public import in a region so remote from the great centres of civilization, and where the want of standard works of reference and solid instruction makes itself continually felt.

In reference to the important question of Funds, the Committee are glad to be able to announce that they have actually in hand a sum of upwards of Fifteen Thousand Dollars, which is expected to be increased to upwards of Twenty Thousand Dollars by a Donation from the Chamber of Commerce. This amount, which has been collected from various sources without any appeal having yet been made to the Community generally, fall, however, obviously short of what will be required for the purposes contemplated, and the Committee trust that further contributions will be liberally and spontaneously tendered in support of the undertaking. Old residents, in retiring from the Colony may perhaps adopt the example of some who have preceded them and evince their interest in its progress and in the well-being of their successors by a contribution to the Fund. The payment of interest on the Canton claims also affords an opportunity for Donations of sums of no great importance individually, but which in the aggregate would materially assist the common object.

The Provisional Committee in concluding their present report, have thankfully to acknowledge the receipt of various amounts from Mr. John Dent, Mr. C. F. Still, Mr. Edward Webb, the late Mr. Angus Fletcher, the Choral Society of Hongkong, and the Trustees of the St. Andrew's School. Further Subscriptions will be received by either of the Trustees.—Messrs. Turing, Noble and Owen.

INTIMATIONS

THE DAILY PRESS
Reading Rooms.

THE periodicals which are received at the office of the *Daily Press* and *Overland Trade Report* in the shape of exchanges &c. comprising as they do, a fair portion of the latest newspapers and other journals from various parts of the world, are from and after this date, thrown open to the mercantile and shipping community of this colony. The papers are filed and laid out in a large commodious room, the back files being kept with all practicable regularity.

It is hoped and expected that the masters and consignees of ships will supply this reading room with any late papers which they may have to spare, in order that the same that they bring may be laid on the tables *pro bono publico*.

The following is a list of the periodicals which will be found on the tables and which are kept filed; and as the only object of the undertaking is to establish a focus of intelligence available, free of charge, to the general public, the proprietor trusts that he may be assisted and encouraged.

BI-MONTHLY SUMMARY,
(From the China Overland Trade Report.)

The last issue of this Report was dated 31st Ulto. for transmission per *Singapore* which steamer was dispatched with the mails for Europe and India the subsequent day. The following is a summary of the intelligence then communicated. The miscarriage of the Anglo. Chinese fleet scheme was likely to cause dissension in the relations between Great Britain and China. Mr. Lay, the paid servant of the Chinese government, when in England on sick leave, had a large sum of money remitted to him for the purpose of buying small steamers for river service—in collusion with certain high British officials he purchased a sea going flotilla, the cost whereof greatly exceeding his limits, he hypothecated the ships for the deficit, to the British government, who imposed certain conditions, manifestly conducive to their exclusive interests, as to the management and control of this fleet, which being manned by British subjects and commanded by officers of the Royal Navy, (engaged for three years) naturally caused a degree of irresponsible influence to fall into the hands of the British Minister at Peking. The French and Russian Ministers, as a mater of course, objected to such a state of things, and the Chinese anti-foreign party, became alarmed at it. The British Minister attempted to sustain Mr. Lay, (who at the time was his acting secretary) and the result was that the Chinese government refused to accept the fleet on the terms imposed, and dismissed Mr. Lay, on the charge of misappropriating the public monies—whereupon, Capt. Osborn, who had been appointed by both the British government and Mr. Lay to command the fleet, ordered the whole flotilla to sea, despatching some of the ships to India and others to England. As may be supposed, the Chinese not only feel aggrieved at the pecuniary loss, but deem the attempt, on the part of the British government, to obtain such undue influence, as an exposition of ill faith and political aggrandisement. It is understood that all personal relations between Prince Kung and the British Minister have ceased for some months past on this account and it is considered that British relations with China are at present on an unsatisfactory footing, inasmuch as the Mandarins are so false, repellent, and impracticable, that a *casus belli* becomes the easiest thing possible, should the British minister be so disposed. Besides the ascendancy of the influence of France and Russia, cannot but be inimical to British interests.

The perfidy practised by the Futai at Soochow was detailed, Major Gordon's exculpatory explanation being deemed by no means satisfactory. It was explained that he retained charge of the disciplined force, acting only on the defensive and independently of the Futai, until that functionary's conduct should have been referred to Peking. It was considered probable that he would be sustained. The impolicy of the commission of the perfidy was enlarged upon; it was considered very probable, had the Futai not broken faith, that the Taipings would have laid down their arms, whereas now, finding that the fleet which they so much dreaded withdrawn, and assistance from the British withheld, they may take heart and prove formidable to the Imperial government unaided by foreigners, which however was not a probable contingency inasmuch as the French appeared desirous to increase their influence, and to suppress the rebellion.

The intelligence from Japan was singular but satisfactory. Satsuma had paid the indemnity demanded for the murder of Mr. Richardson, and had promised to give up the murderers. The Tycoon's government had congratulated the British minister on the settlement of the quarrel, and although there appeared an ardent desire for peace, there was still a refusal to carry out the treaty, on the ground that foreign intercourse was inimical to both nobles and people. The supposition is that the Japanese proposal is to the effect that foreign trade shall be restricted to Yokohama and Nagasaki.

Since then very little indeed has transpired of any political interest. It would seem as though the Futai had been sustained by the Imperial government regarding the perfidy practised by him at Soochow, for honors and rewards have been conferred by the Emperor on both the Futai and Major Gordon for their services in the capture of that city, the news of which must have reached Peking simultaneously with the intelligence of the perfidy. Major Gordon has refused both the honors and the rewards, and awaits advices from the British Minister; so that the footing on which the matter stands would seem to be that unless the Imperial government repudiate the perfidy by punishing the perpetrators of it, the Major will leave their service. The subject is rather important, a remonstrance from the British minister, after the alleged bad faith he was a party to in the matter of the fleet, would not be very effective, and Major Gordon's services would doubtless be gladly dispensed with under present circumstances and a French officer substituted—but then the French minister would reject such an anomalous situation and will no doubt join in remonstrating against the Futai's perfidy, which might compel some notice to be taken of it, although the probability is strong that he will be ultimately sustained.

Matters are not proceeding very satisfactorily—Major Gordon has remained inactive at Quensan, his head quarters, being only available for defensive operations, which are not likely contingencies at present. Soochow is in full possession of the Futai, who is engaged in reorganising the government on its proper footing. The Taiping cause appears still to be on the decline, the Imperial General Ching having captured the city of Pingwong on the grand canal by means of artillery commanded by one Major Bailey. The resistance must have been obstinate for the Imperial loss is stated at 150 killed. There is no intelligence from Nanking, nor does it appear where the Chung Wong's head quarters are.

All depends on the foreign assistance which may be rendered to the Imperialists, who can hardly hold Soochow, besiege Nanking, and take the field against the Taipings too. On the other hand, it is not at all improbable, should foreign assistance be withheld, that the Taipings may regain the ascendancy.

Beyond these circumstances, the undoubted fact has become eliminated, that the policy of the Imperial government is to restrict foreign intercourse as much as possible. For instance the notification which announced Mr. Hart as the successor of Mr. Lay, signified that instead of having a residence at Peking as the latter had had, he was only to visit the Capital when sent for. Again, a French Priest, being duly provided with a passport, lately visited Soochow to see after some landed property which belonged to the mission he is attached to. He was apprehended and wantonly ill-treated by the Imperial authorities, and being taken before a Mandarin, was made *to kneel*. These indications of a reaction in the policy of the Imperial government are unmistakeable, and taken in connection with the present precarious state of foreign relations, cannot be viewed without apprehension and alarm. The truckling, mandarin worshipping policy pursued by the British minister, even before the treaty of Peking and ever since, could not be expected to produce any other result.

But if there be a dearth of political news, the commercial intelligence transmitted herewith, will be found sufficiently interesting to supply the defect. Money has become so excessively scarce at Shanghai that firms of high standing are unable to meet their acceptances in hard cash, and although there cannot be said to be a lack of confidence in the solvency of any, yet such a state of things on the approach of China new year, tends to paralyse trade and to excite a panic. By the last advices from Shanghai exchange had advanced to seven shillings for Bank drafts on London, and to seven shillings and one penny for private. The money market here has of necessity been correspondingly affected, as will be seen on reference to the proper column.

Beyond this, an excitement has arisen in the Rice market, owing to the prevailing idea, that the quantity of ground put into culture for the growth of cotton, will very materially curtail the production of grain. It is for the Shanghai and Ningpo markets that supplies have been sent for. Several large steamers have been chartered for Calcutta at high figures, to load with the article and ships have also been taken up to load there and elsewhere. The consequence is, combined with the export of cotton, and the circumstance of the American flag not being available, shipping has become enhanced in value. This and the advance in Exchange, of course enhance the value of exports, which strange to say do not fall as they should to the pressure for money, and to the altered circumstances which have arisen.

The English mail of 26th Nov., is forty nine days out to-day, and has not arrived. The Japan mails have not come forward—some accident must have occurred to the steamer conveying them, which was much overdue at Shanghai when the mails were despatched thence. Some troops have been sent hence to Yokohama, to guard the foreign settlement as it is said—a circumstance which combined with the detention of the fleet in the bay of Yedo, certainly indicates the fact that matters cannot be considered settled in that quarter. There is however a regiment here sent on for service in Japan, which has not received orders to embark, so that it may be inferred that orders from Downing Street are being waited for.

JAPAN.
Yokohama.

The news brought from Yokohama under date of 24th December, since when we have had no advices, promises well for our future friendly relations with Japan—not so much because Satsuma has paid the indemnity demanded for Richardson's murder; but on account of the friendly dispositions shown by both that Prince and the Tycoon. After the lapse of a twelvemonth, all the demands which were made on the Japanese consequent on Richardson's death have been acceded to, save the execution of his murderers, and to this difficulty we confess we see little prospect of a satisfactory solution. It is easy for Satsuma to promise that he will do his utmost to discover the criminals, and having done so will at once punish them in the presence of British Officer. The written promise to that effect which has been given by his envoys, is of no more value than a verbal one; for it is equally easy to evade either, if he be so inclined. Notwithstanding the very plausible argument adduced by his Minister to Col. Neale before the battle of Kagosima—to the effect that if his master were not sincere in his desire to arrest the real criminals, it would be easy for him to produce a certain number of individuals and declare them such—it is difficult to believe that the apparent readiness to comply with our request is genuine. If Satsuma were in earnest in his researches, it is very unlikely that he would fail to pick out the actual culprits from among the two or three hundred men who composed Shimadzo Saburo's retinue. But he is placed in a position of considerable difficulty. If he arrest and execute these individuals, he will incur the imputation of injustice from his own subjects and of truckling to the English power; for there can be no doubt that Shimadzo Saburo was at least a consenting party if not the prompter of the deed, and is therefore realy responsible. His reputation among his own subjects will not gain by punishing men for obeying the order of their superior, in deference to the request of a foreign power. The alternative is to admit that Shimadzo Saburo gave the order, and is really therefore responsible for Richardson's death; but this he would not desire to take. He maintains Seimadzo Saburo's complete innocence; and thus on either hand is deterred from giving up the real culprit. A considerable change, however, appears to have come over the spirit of our own demands on this point. At first, it was almost universally understood that Shimadzo Saburo, as leader of the party by whom Richardson was murdered, was to be held responsible for the deed, and that his execution should be demanded; but this intention to seems now to have been entirely abandoned. Satuma's reiterated promises that he will do his best to bring the criminals to light are a proof of this; for if the British Minister persisted in looking to Shimadzo Sabuao, there could be no culprit to discover, and Satsuma would be reduced either to deliver up his relative, or refuse point blank to do so, and incur the consequences. The wisdom of this course of policy is a very open question. On the one hand, there can be no doubt that Shimadzo Saburo is morally more guilty than the men who struck the blows; that, in strict justice he should be the individual selected for punishment, and that, to overlook him for the purpose of avoiding collision is a concession which cannot fail to minister to Satsuma's pride. On the other hand, it may be argued that to push matters to an extreme in pursuit of a theoretical object from which no pratical benefit can be obtained, and to re-create inimical feelings at the moment when the clouds that have lately hung over our relations with Japan are begining to disperse, would be gratuitous folly. Supporters of both sides of the question will probably be about equally numerous. It is only to be regretted that Shimadzo Saburo should ever have been pointed out as the guilty party, if we are not prepared to insist on his punishment.—*Shanghai Market Report.*

Hakodadi.

Our correspondent at this port sends us the following under date of 11th December.—

The *Osborne* and *Dove* leaving this evening or to-morrow morning, clear this harbour of foreign shipping;—the combu, or sea-weed season is finished;—and Hakodadi will resolve itself into that usual winter state of tranquility and congelation, which may be daily exemplified by grouse hares and venison for the table, sleighing as amusement, and business at a standstill. To talk of sleighing however, is rather premature, for with the exception of the early part of November, the weather has been exceedingly mild, and we cannot say that winter has commenced.

Exchange is as low as ever; dollars at the present being down to 210. We have had a report that for the representatives of America and Portugal no more exchange will be received. Should this prove true, it is the step I advocated in my last letter, and one without doubt in the right direction. I reiterate that so long as Consuls and other government officers draw exchange from the Japanese government, so long will the dollars remain at depreciated value, and trade with Japan be muffled as it were, and prevented from gaining its full tone. A business to be successful, should be superintended by persons interested in its success; but with trade in Japan the reverse is the rule, and the employes of foreign governments are really *interested against its furtherance.* If Consuls find a difficult in existing in Japan on their present small (?) salaries let their salaries be increased when their exchange is stopped, but by all means let the present *wholesale trading in coin by government officers*, be put an end to.

Wars and rumours of wars have no existence here, and we are as quiet—and likely to continue so, I think—at if there was not the slightest hitch between our respective governments and that of Japan. This has hitherto been a favorite wintering station of Russian vessels of war, but we have not seen one for a long time, although now their more northern ports must be closed. The question then is—where are the Russians, and why do they make themselves so scarce in these parts?—*Ibid.*

Fall of Pingwang.

The Imperialist General Ching has captured the city of Pingwang, on the grand canal. He advanced against the city on the 1st Inst., accompanied by two steamers and by Major Bailey's artillery. Fire was opened on the following morning and the city was carried by assault the same day, with the loss by the Imperialists of 150 killed. The rebels lost about 250 killed and 300 prisoners. The garrison retired towards Kiashing.—*Shanghai Recorder*

Soochow.

For the present the city of Soochow appears to be in a state of perfect tranquility. For the services rendered by the Futai (?) in the capture of the place, the Emperor has been pleased to elevate him, to the rank of *Kung-paou*, a distinction which gives the recipient the privilege of wearing yellow robes when in the Emperor's presence. The following ordinances issued by the throne will exhibit clearly the light in which the respective services of the Futai and of Gordon have been represented by the former.

On the 24th December 1863 the following Decree was issued to the Inner Council:

"Li memorializes announcing that having led his forces to the attack of Soochow, he has retaken the city. The perusal of his report has afforded Us joy and satisfaction indeed! Gordon, as a Tsung Ping of the Province of Kiang-soo, in command of his auxiliary force, has displayed thorough strategy and skill, and has put forth most distinguished exertions. We ordain that a medal of distinction of the highest class be conferred upon him, and further that he receive a donation of Ten Thousand Taels, in token of Our approbation. Respect this!"

On the same day the following private Decree of approval and praise to Gordon for the great bravery and exertions (which attended) the recapture of Soochow. The donation of Ten Thousand Taels is to be provided and sent to him by Li. Foreign nations already possess orders of merit under the name of "stars;" let therefore the decoration of the first class which have conferred upon Gordon be arranged in accordance with this system. Respect this!"

The "Cumshaw" of ten thousand Taels, mentioned above was accordingly prepared, and offered for Gordon's acceptance, but was by him indignantly refused. The events which succeeded the surrender the city seem to have disgusted Gordon with the Chinese service, and to have had the effect of making him regard a Chinese distinction as a degradation.—*Shanghai Market Report.*

The Futai.

We have been informed that for the services which the Futai has represented himself to have rendered the Imperial cause in the province of Kiang-su, he has been promoted to the yellow jacket. This distinction (the *Huang Ma Kua*) raises the recipient over the heads of all other mandarins, and expresses in the most unmistakeable manner the approval of the Emperor. It does not, however, interfere with his subservience to the Governor General Tseng Kuo-fan, and he will, therefore, in all probability continue to act as Futai in this province.—*N. C. Herald.*

Defalcation. Oriental Bank Shanghai.

Considerable sensation has been created here by the defalcation and disappearance of the Compradore of the branch of the Oriental Bank; some five or native Bankers were the principal sufferers; every step was immediately taken by the Manager for the apprehension of the delinquent. Reports have been numerous and conflicting, and the exact amount abstracted and the actual circumstances of the case are known but to a few. It is believed however that the Oriental Bank will hold the sufferers harmless, and in the meantime we look with confidence to the apprehension and punishment of the defaulter. There can be little doubt that as a general rule, this class of Chinamen posses far too much, the confidence of their employers, which, when worth their while, they but too frequently abuse.

P.S.—Since writing the above the Bank Compradore has been placed in custody, whilst the Bank holds the Native Bankers Sycee in trust pending the judicial enquiry.—*Shanghai Recorder.*

TONNAGE.

Tonnage.—Hongkong.—The large ships having been worked off in the Cotton trade, and the United States flag being disqualified from entering the market, it has always been prognosticated in this Report, that an excitement in the Rice market must elevate the rates for tonnage. The extreme advance in the price of Cotton is known to have thrown grain out of cultivation, and the natural result is that an impetus has been given to the trade of foreign imported Rice. It may be safely averred that every available craft, steam and sailing has been taken up for the Rice ports, and consequently the rates generally have risen. Should the usual free emigration to San Francisco and Australia occur, there will be a great scarcity of ships. The prospects generally are good. The following settlements will best indicate the nature of the business transacted.

Shanghai.—Tonnage has been in much greater demand during the past fortnight and at higher rates. The vessels now on the berth for New York are found sufficient, no new settlements having been made for that Port during the fortnight. Cotton freights for Liverpool have risen to £5 a $5.7 6 and it seems likely that they will advance still further, but room for Tea can be had at from £3.17. 6 a £4 per ton. Vessels under European colours are in greater demand for the Coast trade than was the case at the time of last report. The following settlements have been made.

Swatow.—Demands at Hongkong has drawn there many of our usual traders, while with a good enquiry rate are advancing here. We hear of the following engagements.

Mischief.—7,000 pls. coast trade 6 month, at $1,200 per month.

Robert and Alexander.—9,000 piculs. Chefoo, and back 45 days, at $3,200 per month.

Valtta.—9,000 piculs. do. do. $10 per picul.

IMPORTS.

White Shirtings, 36 in X 40 yds.—As will be noticed above, these are very low in stock, and being chiefly in the hands of one holder, who is asking extreme prices, they must further advance. The transactions in Dec. embraced 4,760 pieces, the quotations for which were 14 X 12 $5 *a* $2.25, and 16 X 14 $5.75 per 40 yards.—*Grey Shirtings* 39 in X 38½ yards. Stocks are is also much reduced, but the consumption is now only a third of that of former years. There are constant inquiries for 6 lbs *a* 4.87½, 7 lbs *a* $5,37½, and 8½ lbs at $6.12½ per 40 yards, but Importers require $5.18¾ for 6 lbs; $5.75, 7 lbs; $6.50, 8 lbs 4 oz. The month's sales are 1,700 pieces at the former quotations.—*Grey Longcloths* 38 in X 36 yards. The stock is below an average four months consumption at cheap prices, but the demand is small at $6.50 per 40 yards for 9 lbs, which is generally asked. Some 850 pieces have changed hands in the month and a sale of 500 pieces 9 lbs is just reported at $5.93¾, which is below the market price.—*Grey Twills* 27 in X 28 at 30 yards. Dealers neglect these at the advanced quotations and only offer for inferior qualities, at about $4.50 per 32 yards. There are no sales to report and the stocks appear likely to be adequate to the demand for some time to come. Holders of standard makes continue firm.—*White Jacconets* 38 in X 20 yards. The demand is excellent and present stocks would soon be cleared by making a little concession to dealers, the latter find great difficulty in obtaining the advance from consumers, and consequently limit their purchases to the wants of a few weeks. The descriptions most in demand are assortments of low numbers, to sell at $2 to $2.50 per piece, of which the market is bare—no sales in Dec.—*Victoria Lawns* 42 in X 12 yards. The present supply is moderate, and the demand weak for fine goods, for which we note an advance of 18¾ cents per pieces during the fortnight, for 1,200 pieces.—*White Cambrics* 40 45 in X 12 yards. An advance has been obtained for 300 pieces No. 24, which we now quote at $1.87½ per piece. We have little doubt but that they must go higher in the present scarcity of white goods.—*Plain Grandrills* 27 in X 36 yards. The quantity on the market is unusally small, but is principally composed of unsaleable shades, for which the cost is not obtainable. Fair profits are being made on small lots of the right article, which are placed as they arrive at $6.50 *a* $7.75 per 60 yards. Striped have not much changed, old parcels are still on offer below invoice prices. We report a sale of 600 pieces at $1.50 per 40 yards.—*Turkey Red Cambrics* 33 in X 24 yards. The position of this article is favourable, and we look for an advance on the present price of $4 *a* $4.12½. The sales in Dec. were 1,400 pieces at $4 to $4.25. The demand keeps steady.—*Handkerchiefs.* We note less inquiry since last mail, but Gingham styles are scarce, and Dealers secure what they can to arrive. Madras solid centres are very saleable in 24 in. square. Swiss Muslin fetch 87½ to $1.87½ for 31 inches. The total sales of all kinds are 13,950 dozens at 75 cents at $2.25 per dozen. —*Ginghams* 24 yards. During the month 9,703 pieces have been taken, and a small advance has been obtained. We quote ordinary Solid Checks, 27 in. at $2.87½, and 40 inches at $3.75 Fancy Checks, 27 in., $3.43¾ *a* $4.25; 40 in., $5.25 *a* $5.75. Indigo Dark Blue of superior makes are worth $5.59 *a* $6.25, for 40 in.—*Blue and White Checks* 38 in. X 30 yards. Without change or transactions since our last, the month's sales remaining at 1,300 pieces.—*Trouserings* 25 27 in. X 30 yard. *White Sattcens* are much asked for at 15¾ cents per yard for *Plain*, but other descriptions are neglected. The sales are 2,284 pcs. —*Cambayas.* Little progress has been made in clearing old partterns. Approved makes of *Dark Blue* have advanced to $46 per Corge. Sales of all kinds 495 Corges.—*Woollens* are in little demand, no sales being reported.—*Marine Stores* We notice a sale of 105 Bolts *Canvas* at $10 per Bolt, and 500 Kegs common *Paints* at $1.12½ per Keg.—*Metals.* No change, all descriptions continue heavy of sale.

EXPORTS.

Sugar.—No transactions of consequence in Current Clayed have transpired, but Dealers have further advanced their demands, having refused $5 per pecul (£20-13-0.)—Unclayed descriptions have also advanced, but are still relatively cheaper than Clayed. We quote the price last paid as $3.18¾ per pecul (£14.0.1) for Zebu.

The total Exports of Sugar for the past year show a decrease of 92,100 peculs on those of 1862 the falling off in the shipments to Australia and and Great Britain being no less than 379.229 peculs, against which we have an increase of 338.150 peculs to China. To quantity now in course of shipment and in stock, is much less than was the case at the end of 1862.

Hemp.—Since arrival of the mail there has been some demand, which has caused an advance in the price to $5.25 per picul (£23.10.1.) for *Current*

The Receipts to 31st, Ultimo were 570,751 peculs, against 463,974 peculs in 1862.

The Exports in 1860 were 424,071 peculs and the stocks on 31 December were 62,000 peculs, against in 1862 were 472.189 peculs, and a stock of 44,266 peculs, some 30,000 peculs having been used during the year for the man ufacture of Cordage &c.

CANTON INDEMNITY MONEY. NOTIFICATION.

D. B. ROBERTSON,
H. B. M.'s Consul for Canton.

CIRCULAR.

THE Provisional Committee for promoting the erection of a City Hall in Hongkong, desire to report the progress that has been made, up to the close of the present year, in furthering the object for which they are associated.

The principal difficulty connected with this undertaking has been to procure a site that should be at once suitable for the purpose, and in the gift of Government; it being obvious that the present high value of Land within the limits of the City made it impossible that any sum of money, which the Committee could expect to command, would prove adequate if ground had to be purchased.

An application for a site at the Western Corner of the Parade Ground, immediately under Messrs. A. Heard & Co.'s Office, was promptly and liberally conceded, but, before any formal grant of the Land had been made, it was fortunately discovered that difficulties, previously thought insuperable, to the occupation of the piece of ground now partially occupied by the Harbour Master's Office, were susceptible of removal; and the Committee have the satisfaction of stating that a recommendation for a grant of that site (undoubtedly the most eligible for the purposes of a City Hall in the whole Colony) has, with the approval of the Military Authorities, been forwarded by the local Government to the Secretary of State for the Colonies, and that the position of the Drinking Fountain (presented to the City by Mr. John Dent, and now in course of erection) has been determined with special reference to the dimensions and situation of the proposed Building.

The space which, is it confidently hoped, will be thus placed at the disposal of the Committee will enable them to embrace in their scheme the following accomodation:—

I. A Public Hall, to be called the St. Andrew's Hall, in acknowledgment of a sum of Five Thousand Dollars, which has been voted to the undertaking from the surplus Funds of the late St. Andrew's School. This room will be available for Public Meetings, Public Dinners, Balls, Concerts, and other public purposes.

II. A Supper Room adjoining the Hall, and which, together with the Hall, can be used, when not specially required for other purposes, as an Exchange.

III. A Room for the Chamber of Commerce, where files of Newspapers, Prices Current, Books of Commercial reference and Telegrams will be opened to the use of Subscribers to that Institution.

IV. A Public Library for the objects stated by the Trustees of the Morrison Education Society in their printed Circular of the 1st May last.

V. A permanent Theatre, which will encourage visits to Hongkong by musical and histrionic artists from other parts of the East, and will obviate the necessary heavy and unsatisfactory outlay which the frequent erection of temporary Theatre has hitherto entailed.

The remainder of the space will be absorbed by the Harbour Master's Office, which will be removed from its present position, to one appropriated for it in the North Eastern angle of the intended building, in accordance with the proposal submitted by the Committee to Government for permission to use the site which that office at present partially occupies.

Finished plans have not yet been prepared, and it is proposed that, at the proper time, they should be thrown open to competition, but the Committee have satisfied themselves that the space they have applied for will be ample for carrying out the various objects enumerated above on a scale which will render the intended edifice an ornament to the City, a convenience to the public, and in every way worthy of a Colony whose rapid growth and progress are the surest proofs of its wealth, enterprise and prosperity.

The urgency of the want that exists for a Public Building of this nature need scarcely be dilated on. Without diverting the Club House from its legitimate uses, at a great sacrifice of the convenience of its members, there is not in the length and breadth of the City a suitable room which can be commanded for any object of general or social interest. The difficulties that attended the Inauguration Dinner of the Volunteers, the abandonment last winter of a Masonic Ball for want of a room to hold it in, and the disadvantages to which the professional Artists at present here are exposed, are a few instances amongst very many of the inconveniences occasioned by the the want of a City Hall, a want, the Committee believe, which is not shared by any other foreign Community of equal importance East of the Cape, a want which has been recently supplied at Singapore and which they trust will not be allowed much longer to serve as an indication of an absence of public spirit in Hongkong.

The preservation of the valuable collections of Books in the care of the Trustees of the Morrison Education Society, and which are threatened with decay for want of a proper place of deposit, is an object which especially commends itself as a matter of public import in a region so remote from the great centres of civilization, and where the want of standard works of reference and solid instruction makes itself continually felt.

In reference to the important question of Funds, the Committee are glad to be able to announce that they have actually in hand a sum of upwards of Fifteen Thousand Dollars, which is expected to be increased to upwards of Twenty Thousand Dollars by a Donation from the Chamber of Commerce. This amount, which has been collected from various sources without any appeal having yet been made to the Community generally, fall, however, obviously short of what will be required for the purposes contemplated, and the Committee trust that further contributions will be liberally and spontaneously tendered in support of the undertaking. Old residents, in retiring from the Colony may perhaps adopt the example of some who have preceded them and evince their interest in its progress and in the well-being of their successors by a contribution to the Fund. The payment of interest on the Canton claims also affords an opportunity for Donations of sums of no great importance individually, but which in the aggregate would materially assist the common object.

The Provisional Committee in concluding their present report, have thankfully to acknowledge the receipt of various amounts from Mr. John Dent, Mr. C. F. Still, Mr. Edward Webb, the late Mr. Angus Fletcher, the Choral Society of Hongkong, and the Trustees of the St. Andrew's School. THE DAILY PRESS
Reading Rooms.

THE periodicals which are received at the office of the *Daily Press* and *Overland Trade Report* in the shape of exchanges &c. comprising as they do, a fair portion of the latest newspapers and other journals from various parts of the world, are from and after this date, thrown open to the mercantile and shipping community of this colony. The papers are filed and laid out in a large commodious room, the back files being kept with all practicable regularity.

It is hoped and expected that the masters and consignees of ships will supply this reading room with any late papers which they may have to spare, in order that the same that they bring may be laid on the tables *pro bono publico*.

The following is a list of the periodicals which will be found on the tables and which are kept filed; and as the only object of the undertaking is to establish a focus of intelligence available, free of charge, to the general public, the proprietor trusts that he may be assisted and encouraged.
